BY _____ (Signature of person authorized to sign)				BY _____ (Signature of Contracting Officer)			

This amendment is issued to make the following corrections/revisions/additions to this solicitation:

1. **THE SOLICITATION CLOSING DATE HAS BEEN EXTENDED TO JUNE 18, 2002/3:00 P.M. LOCAL TIME-FT. BELVOIR, VA**
2. Add the following statement to item #3 of page 2 of the DD Form 1707 and item #1 under REQUIRED INFORMATION FOR SUBMISSION WITH OFFER on page 4 of the solicitation:

Refer to Clause M72-03-1.100, EVALUATION FACTORS FOR SELECTION OF BEST OVERALL VALUE, of this solicitation.

3. Correct sub-paragraph identifiers of item #4 on page 8 of the solicitation from a., c., and d. to a., b., and c.
4. Add pages 5 through 11 of this amendment to the Offer Submission Package (OSP) for the offeror to complete as required by Clause M72.03-1.100. Page 5 is the Service Station Location Sheet Instructions and pages 6 through 11 are the Service Station Location Sheets, Attachments A and B to the OSP.
5. The following clauses are added to the solicitation and are in full text starting on page 3:

I86.12.100	DELIVERY-ORDER LIMITATIONS – SCOPE OF CONTRACT (ITALY COUPONS)(DESC MAY 2002)
L2.01-3.100	PROPOSAL PREPARATION INSTRUCTIONS AND PAST PERFORMANCE SUBMISSION (OVERSEAS)(DESC JUL 2001)
M72.03-1.100	EVALUATION FACTORS FOR BEST OVERALL VALUE (OVERSEAS) (DESC MAY 2002)

**I86.12.100 DELIVERY-ORDER LIMITATIONS – SCOPE OF CONTRACT
(ITALY COUPONS)(DESC MAY 2002)**

The Government agrees to purchase, during the period of this contract and in accordance with the terms of this contract, at least a quantity of product, under the contract terms, that will be not less than 1% (one percent) of the total estimated volume reflected in the solicitation at the time of award.

**L2.01-3.100 PROPOSAL PREPARATION INSTRUCTIONS AND PAST
PERFORMANCE SUBMISSION (OVERSEAS)(DESC JUL 2001)**

(a) **THE OFFER.** The offer (proposal) shall consist of the following items:

(1) **Standard Form (SF) 1449**, Solicitation/Contract Order for Commercial Items, Blocks 12, 17 through 24, and 30.

(2) **Schedule clause.** The offeror shall insert its proposed unit prices for each contract line item in the spaces provided in the SUPPLIES TO BE FURNISHED clause or as specified in the solicitation.

(3) **Offeror Submission Package.** The offeror shall complete the representations and other statements of offerors contained in the Offeror Submission Package enclosed with this solicitation. The clauses/provisions found in the Offeror Submission Package are duplicated in the basic solicitation.

(4) **Other Required Documents.** The offeror shall submit all other documents required by the terms and conditions of this solicitation.

(5) **Exceptions.**

(i) Any exceptions the offeror takes to the terms and conditions of the solicitation must be submitted with the offer. Only exceptions detailed in the offer will be treated as exceptions to the terms and conditions of the solicitation. Any exceptions taken by the offeror will be considered by the Government and either accepted or rejected. Exceptions that are accepted by the Government will be incorporated into any resultant contract; exceptions that are rejected by the Government must be withdrawn by the offeror or the offer will be rejected.

(ii) If the offeror does not take any exceptions, completion of blocks 12, 17 through 24, and 30 of the SF 1449 signifies the offerors agreement to the terms and conditions contained in the solicitation.

(b) **TECHNICAL CAPABILITY SUBMISSION.**

(1) In addition to its offer, each offeror must provide a complete listing of all its service stations with the proximity of the stations to U.S. and NATO installations and their housing areas, general roadways, and the number of stations situated on the Italian Autostrade. This will be considered as a major factor in the technical evaluation of each individual offer. See Clause M72.03-1.100.

(2) Any stations that are under a subcontract or a leasing agreement from another company must also be listed.

(DESC 52.215-9F76)

**M72.03-1.100 EVALUATION FACTORS FOR BEST OVERALL VALUE
(OVERSEAS)(DESC MAY 2002)**

(a) **BASIS OF AWARD.**

(1) It is the intent of the Government to make a multiple award and award contracts to the responsible offeror(s) whose offer conforms to the solicitation and that represents the best overall value. However, the Government reserves the right to award a single contract if there is but one offeror, which is the only responsible service station company, incorporated in Italy, whose offer conforms to the solicitation. The Government will determine best overall value on the basis of an integrated assessment of the following evaluation factors:

(i) Technical Capabilities ; and

(ii) Price.

Offerors are advised that the Government is more interested in obtaining quality performance than lowest price. However, the Government will not pay a price premium that it considers disproportionate to the benefits associated with the offeror's technical capabilities.

(2) In determining best overall value, the Government will evaluate and rate each offeror's technical capabilities in accordance with the selection criteria established. The offer(s) selected as best value will represent the best tradeoff to the Government between technical capabilities and price.

(b) **ACCEPTABILITY OF OFFERS.** An offer will be considered acceptable if, and only if, an offeror agrees to the terms and conditions in the solicitation, or if the Government has accepted any exceptions submitted with the offer.

(c) **EVALUATION OF TECHNICAL CAPABILITY .**

(1) The Government will evaluate, based on preestablished standards, the quality of the offeror's technical capability. The assessment of the offeror's technical capability will be used as a means of evaluating the offeror's ability to meet the solicitation requirements. Data reflecting inadequate technical capability may be considered an indication that the offeror cannot meet the highest levels required for contract performance per station coverage requirements. Offerors lacking adequate station coverage will not be evaluated favorable on technical capability.

(2) The Government reserves the right to consider any information available to it in evaluating an offeror's technical capabilities. This includes information obtained from the offeror's submitted station listings, and any other sources that may have useful information. However, the Government reserves the right to assess the offeror's technical capabilities based solely on the offeror's submitted listing of gas stations and subfactors listed in paragraph (c)(3) of this clause.

(3) The subfactors listed below are equal to one another in importance and will be used to evaluate technical capabilities:

(i) **Factor 1 - Number of Service Station:** Offerors must have a minimum of 1,000 service stations available within Italy that carry both Gasoline, Automotive, Premium Unleaded and Diesel Fuel, DF2, Automotive Use.

(ii) **Factor 2 - Service Station Location:** Offerors must provide a listing of all service stations. This list must identify the address of and the solicited products available at each station and each stations operating hours. In addition to the listing of service stations, all offerors are to complete the "Service Station Location Sheet" provided in the Offer Submission Package. This represents the distance of the service station to each base, housing area, general roadway, and autostrade locations.

(iii) **Factor 3 – Administration:** Offerors must identify the personnel that will be assigned to administer any resultant contract and demonstrate that they have the relevant understanding of the Plafonds (tax exemption process).

(iv) **Factor 4 – Product Specification:** Offerors must demonstrate that are able to meet the product specifications identified in the solicitation.

(d) **BEST VALUE DETERMINATION.** The government will assess the technical appraisal and the price evaluations to determine the best value to the Government in terms of technical capability and price. A series of comparisons will be made between competing offers. In making these comparisons, the Government will determine the difference in technical capabilities and price. If, in any comparison, one offeror is superior in technical capabilities and offers the lowest price, then the Government will consider that offeror to represent the best value. But, if the offeror with the superior technical capabilities offers a higher price than the competing offeror, the Government will determine whether the superior performance merits the higher price. The Government will continue to make paired comparisons in this manner until it has identified the offeror that represents the best value based on technical capabilities and price.

(DESC 52.209-9F75)

SERVICE STATION LOCATION SHEET
INSTRUCTIONS

SERVICE STATION LOCATION SHEET – **OSP ATTACHMENT A:** THE OFFEROR IS TO INDICATE THE **NUMBER** OF SERVICE STATIONS 1, 3, OR 5 KILOMETERS FROM EACH OF THE BASE AND HOUSING LOCATIONS LISTED.

SERVICE STATION LOCATION SHEET – **OSP ATTACHMENT B:** THE OFFEROR IS TO LIST SERVICE STATIONS LOCATED ON THE AUTOSTRADA/ROADWAYS/TANGENZIALE AND INCLUDE A LOCATION MARKER OF EACH OF THE SERVICE STATIONS.
